NATIONAL ARCHIVES MICROFILM PUBLICATIONS

INTRODUCTION

On the 74 rolls of this microfilm publication are reproduced the compiled records that give histories of Confederate military units. The compiled records consist of jacket-envelopes bearing the names of the units and titled "Captions and Record of Events." These jacket-envelopes typically contain (1) caption cards showing the exact captions of the muster rolls as copied and the certificate of the mustering officer verifying the accuracy of the rolls; and (2) record-of-events cards containing information relating to the stations, movements or activities of each unit or a part of it, and sometimes to its organization or composition, strength and losses, and disbandment. The amount of information contained on a card varies. Some include only date and name of station of the unit. Others give detailed accounts of the unit's operations and activities. These compiled records are part of the War Department Collection of Confederate Records, Record Group 109.

Because some records of the Confederate Army were lost or destroyed during the war and at its close, the compiled military histories of most units are incomplete. There are no record-of-events cards for a small number of State units that were mustered into Confederate service and for militia units that were never mustered into service.

The compilation of records showing service of Confederate military units was undertaken simultaneously with compilation of service records of Confederate soldiers. The work was begun in 1903 under the direction of Brig. Gen. Fred C. Ainsworth, head of the Record and Pension Office in the War Department. Abstracts were made from documents in the War Department's collection of Confederate records and from documents borrowed mostly from Southern States by the War Department in an effort to obtain as complete military histories of units as possible. The original muster rolls and returns were the principal sources of information abstracted on the caption cards and lists of officers envelopes, but rosters, payrolls, hospital registers, casualty lists, Union prison registers, casualty lists, Union prison registers and rolls, parole rolls, and inspection reports were also examined for this purpose. Abstracts were verified by separate comparison, and every precaution was taken to ensure their accuracy.

Some of the jacket-envelopes, particularly those titled "Captions," "Rolls," "Instructions," or "Information," do not contain card abstracts, but do contain information cards that serve as cross-references to records filed with other units. On the front of each jacket-envelope is a series of numbers that corresponds to the number on the back of each card in the jacket. The reverse side, which contains a number and a date stamp, was

NATIONAL ARCHIVES MICROFILM PUBLICATIONS

not filmed unless it contained additional information. The numbers and dates were stamped on the cards for control purposes at the time the compiled records were prepared. Later, notations were made on some jackets to indicate that clothing rolls of the units were extant. Card abstracts were prepared from information on these rolls and filed with compiled records of individual soldiers but not in the jacket-envelopes reproduced on this microfilm publication.

Preceding the jacket-envelopes of most units are empty envelopes on which are listed the names of officers of the unit or, occasionally, only the name of the commanding officer. The letter "C" and the numbers "1" and "2," which follow names of officers, indicate the grades of captain, first lieutenant, and second lieutenant, respectively. The lists often include dates on which units were called into service and mustered out; dates of deaths, promotions, resignations, or retirements of officers; and information relating to consolidations, transfers, disbandments, or other changes in the organization of units. A stamp reading "All rolls filed herewith" appears on some of the lists, but no rolls are now filed with the lists. Similarly, the notation "For references see inside," which appears on some lists, should be disregarded as there are now no reference sheets in the envelopes.

Lists of officers were prepared for many State militia units that were not mustered into service and for other organizations for which no rolls were found. These lists are filed under "Miscellaneous" and appear at the end of records of State units and at the end of records of units raised directly by the Confederacy. With a few exceptions no lists were prepared for units from North Carolina.

Most of the compiled records reproduced in this microfilm publication are arranged alphabetically by State, thereunder by type of unit (cavalry, artillery, and infantry), followed by reserve, militia, local defense, conscript, prison guard, instruction, or other organizations. The table of contents was prepared from caption cards; the information in parentheses or brackets consists of other names by which units were known and related information. The arrangement of compiled records for units raised directly or otherwise formed by the Confederate government is similar except that the latter units are not broken down by State.

The National Archives has compiled records of Confederate soldiers who served in units whose histories are reproduced in this microfilm publication. There are also card indexes to help locate the compiled service records of Confederate soldiers. All the records and the related indexes have been microfilmed.

The archivist responsible for the preparation of this microfilm publication is Geraldine N. Phillips.

Near Marietta Ga.

RECORD OF EVENTS.

The Company ordered into active service on
5 day of September 1863 by the proclamation of
Governor Brown by order of As-
sistant Davis, Leg^l Dallas, Auditing
Co. Ga. the eighth day of September 1863.
Reported to Col. Slicker at Carter's, who
referred to Dallas on September 12th
1863. Picked the Road, taking up Drums
tramples &c and returning them
to their commands. Remained to Camp
Cotnam, about 14 miles distant and on
October 18th moved to Camp Nelson in
Harrison County on 9th of October being 20 miles
from Camp Cotnam. Then moved 20 miles
to Camp Phillips near Bowden in Ala.
20th of October 1863. In marching from
Camp to camp the Company was divided
into scouting parties and a heliostation
at the different camps. Scouting parties
were sent out into the country 15 and 20
Miles across and back in concert
with the Alabama State Militia along
the State line cutting up the country over

C. S. Black

Straggles, conscript, and keeping down
 them and the post office, and doing
 business for the post office. The company
 left camp Phillips on Nov 13 1863 and di-
 viding into scouting parties proceeded to
 Camp Baskin with violence arriving there the
 next day 20 Miles distant. Some of the scout-
 ing parties proceeded to Heard County and to
 the line of Alabama acting as before in con-
 nection with Alabama. Scouts and men
 arriving at camp Baskin during the en-
 suing 10 days. While at camp Baskin the com-
 pany engaged as before in scouting parties
 arresting, capturing and executing desert-
 ing prisoners, executed him or exchanged
 and failed to report to their command and
 ascertaining Straggles, conscripts and
 violators of Law. On the 21st of December
 the company was ordered to build a
 road to scout that country until 10th day
 of January 1864. On 11th day of Jan-
 uary 1864 the company was ordered to
 a place called Shugrue's camp.
 Arrived six Miles from Marietta
 in Cobb County and while there
 scouting and arresting parties and
 performing the duties of the camp.
 No deaths of men or loss of horses

Handwritten text, likely a letter or document, written in cursive script. The text is mostly illegible due to fading and the quality of the scan. Some words are difficult to decipher, but the overall structure suggests a formal communication. The text is written on a single sheet of paper, which is slightly tilted. The handwriting is consistent throughout, suggesting it was written by a single person. The paper appears aged, with some discoloration and wear visible at the edges. The text is organized into several paragraphs, with some lines indented, indicating a structured format. The overall tone of the document is formal and professional.

The first of these is the fact that the
 population of the country is increasing
 rapidly. This is due to a number of
 causes, the most important of which are
 the increase in the birth rate and the
 decrease in the death rate. The birth rate
 has increased in many countries, and the
 death rate has decreased in many countries.
 This is due to a number of factors, including
 improved medical care, better sanitation,
 and a general increase in the standard of
 living. The result is that the population
 of the world is growing at a rapid rate.
 This has many consequences, both good and
 bad. On the one hand, it provides a large
 labor force for the world's industries and
 agriculture. On the other hand, it creates
 a great demand for food, clothing, and
 shelter, which may not be met in some
 parts of the world. It also creates a
 great demand for education, which may not
 be met in some parts of the world.
